It is one of the federal government's largest programs for assisting low income families to secure housing at an affordable cost. Funding for the Section 8 program is provided from the Department of Housing and Urban Development (HUD). Participants on the program rent from private landlords and pay approximately 30% (not to exceed 40%) of their adjusted gross income toward rent, including an allowance for utilities paid by the participant. The Housing Authority pays assistance based on a payment standard set for the participant. The assistance is tied to the participant, not to the unit and thus provides flexibility to the participant in choosing where they want to live.
