<https://www.capwi.org/>

1008 S 5th St, Frankfort, IN 46041

Head Start is a federal program that promotes the school readiness of children under five from low-income families by enhancing their cognitive, social and emotional development. Head Start programs provide a learning environment that supports children's growth in many areas such as language, literacy and social and emotional development. Head Start emphasizes the role of parents as their child's first and most important teacher. These programs help build relationships with families that support family well-being and many other important areas.

Early Head Start programs serve infants, toddlers and pregnant women and their families who have incomes below the federal poverty level. Early Head Start programs were established in recognition of the mounting evidence that the earliest years matter a great deal to a child's growth and development.
